Email: yogitayadav422003@gmail.com Mobile: +917568259835

**Summary:** Final-year CSE student with a strong foundation in data science and machine learning, and hands-on experience building end-to-end ML pipelines, analytics dashboards and full-stack web applications. Passionate about turning data into practical, business-ready solutions.

## SKILLS

| | |
|---|---|
| **Languages:** | Python, SQL, C++ |
| **Libraries:** | NumPy, Pandas, Scikit-learn, LightGBM, SHAP, PuLP, Matplotlib, Seaborn |
| **Core Areas:** | ML, Data Analysis, Time Series Forecasting, Feature Engineering, LLMs & Embeddings |
| **Big Data & Tools:** | PySpark, Databricks, MLflow, Power BI, MS SQL Server, Excel, Git/GitHub |
| **Web & Backend:** | Django, Flask, FastAPI, REST APIs, Tailwind CSS, HTML, JavaScript |
| **CS Fundamentals:** | DSA, OOP, DBMS |
| **Soft Skills:** | Analytical Thinking, Communication, Problem-Solving, Teamwork |

## PROJECTS

**Telecom Customer Retention Intelligence System | GitHub** May' 26

- Built an end-to-end churn prediction pipeline on 7,043 telecom records, covering data preparation, feature engineering, and model development and validation (Logistic Regression, Random Forest; ROC-AUC 0.92, Recall 0.86) with SHAP explainability.
- Designed a multi-model decision-support system (churn classification, CLV regression $R^2$ 0.9976, KMeans k=4) with a 2×2 priority matrix that surfaced $7.2M+ in customer lifetime value at risk across 3,522 predicted churners.
- Deployed via FastAPI (Render) and a Streamlit dashboard; 35 pytest validation gates and a reproducible pipeline (seed 42) on 7,043 records support experimentation and monitoring.
- **Tech Stack:** Python, Scikit-learn, Pandas, NumPy, SHAP, Streamlit, FastAPI, pytest

**Adidas Sales Analysis | GitHub** Mar' 26

- Built a 3-page interactive Power BI dashboard on Adidas US Sales data (2020–2021); used Power Query for data cleaning and feature engineering to surface $899.90M sales, $332.13M profit across 9,648 transactions.
- Authored 10+ DAX measures (Total Sales, Operating Profit, YoY Growth, Top Retailer) to track $899.90M in sales and $332.13M in profit, enabling time-based trend analysis across years, retailers and products.
- Designed synchronized visuals (bubble, combo, donut and line charts) with 6 slicers and navigation buttons for self-service drill-down, translating complex data into clear insights for non-technical stakeholders, such as the top three retailers driving 72% of sales (led by West Gear) and Men's Street Footwear being the top product.
- **Tech Stack:** Power BI, DAX, Power Query, Microsoft Excel

**College Shop Pre-Order & Crowd Management System | GitHub** Feb' 26

- Architected foodR, a full-stack Django application with role-based access (College User vs. Shop Owner) across 5 modular apps and custom permission decorators.
- Engineered race-condition-safe order scheduling using atomic token allocation, slot-based pickup validation against shop hours and database constraints to prevent duplicate or overbooked orders.
- Built a shop analytics module with Django ORM aggregations to surface sales trends and top-selling items, plus an in-app notification system and UPI/QR-based payment configuration.
- **Tech Stack:** Django, Python, MySQL, HTML, CSS, Tailwind CSS, Git/GitHub

## ACHIEVEMENT

**Patent: Temperature-Sensitive Car Seat Cover with Automated Heating & Cooling** May' 25

- Co-invented a patented IoT-enabled smart car seat cover that regulates seat temperature automatically, combining Phase Change Material (PCM) for thermal buffering with active heating and cooling.
- Integrated temperature sensors with an ESP32 microcontroller to sense seat temperature and trigger heating/cooling automatically, with mobile app control for the user.

## CERTIFICATES

Oracle Certified Foundations Associate | Oracle May' 26
Privacy and Security in Online Social Media | NPTEL Oct' 25

## EDUCATION

**Lovely Professional University** Phagwara, Punjab
Bachelor of Technology; Computer Science and Engineering; CGPA: 7.63 Aug' 23 – Present
**Children's Academy Convent School** Alwar, Rajasthan
Intermediate; PCM; Percentage: 81% Mar' 19 – May' 21
**Step By Step Public School** Alwar, Rajasthan
Matriculation; Percentage: 90.2% Mar' 18 – May' 19
