How might we

Entry & Ordering Stage
- HMW control entry crowd during rush hours?
- HMW make order and pickup zones clearer?
- HMW improve menu visibility and readability?
- HMW let users customize and order easily?

yogita yadav

Waiting & Preparation
- HMW reduce waiting time and frustration?
- HMW keep users updated on order status?
- HMW make waiting time more engaging?
- HMW provide comfort while waiting?

yogita yadav

Pickup & Serving Stage
- HMW make pickup more organized and smooth?
- HMW ensure order numbers are easy to see?
- HMW keep food fresh until pickup?
- HMW simplify the handover process?

yogita yadav

Dining & Environment
- HMW reduce crowding and noise in the dining area?
- HMW maintain cleanliness after each use?
- HMW improve lighting
- quality?
- HMW help users find available seats easily?

yogita yadav

Exit & Feedback Stage
- HMW reduce congestion near plate and handwash area?
- HMW make exit flow smoother and separate from entry?
- HMW collect quick, effective feedback?

Ideation Ideas

Entry & Ordering Stage
- Use a QR-based token or queue system to manage entry.
- Add floor signage and direction boards for better navigation.
- Install bright digital menu boards at visible points.
- Enable in-app ordering and customization before.

yogita yadav

Waiting & Preparation
- Add real-time order tracking in app and display screen.
- Show estimated wait time with notifications.
- Create interactive entertainment wall
- Offer comfortable seating and pre table booking .
-

yogita yadav

Pickup & Serving Stage
- Divide pickup counters into number/letter zones.
- Add large, visible digital order boards.
- Use heated pickup shelves for hot food.
- Implement QR-based confirmation for quick pickup

yogita yadav

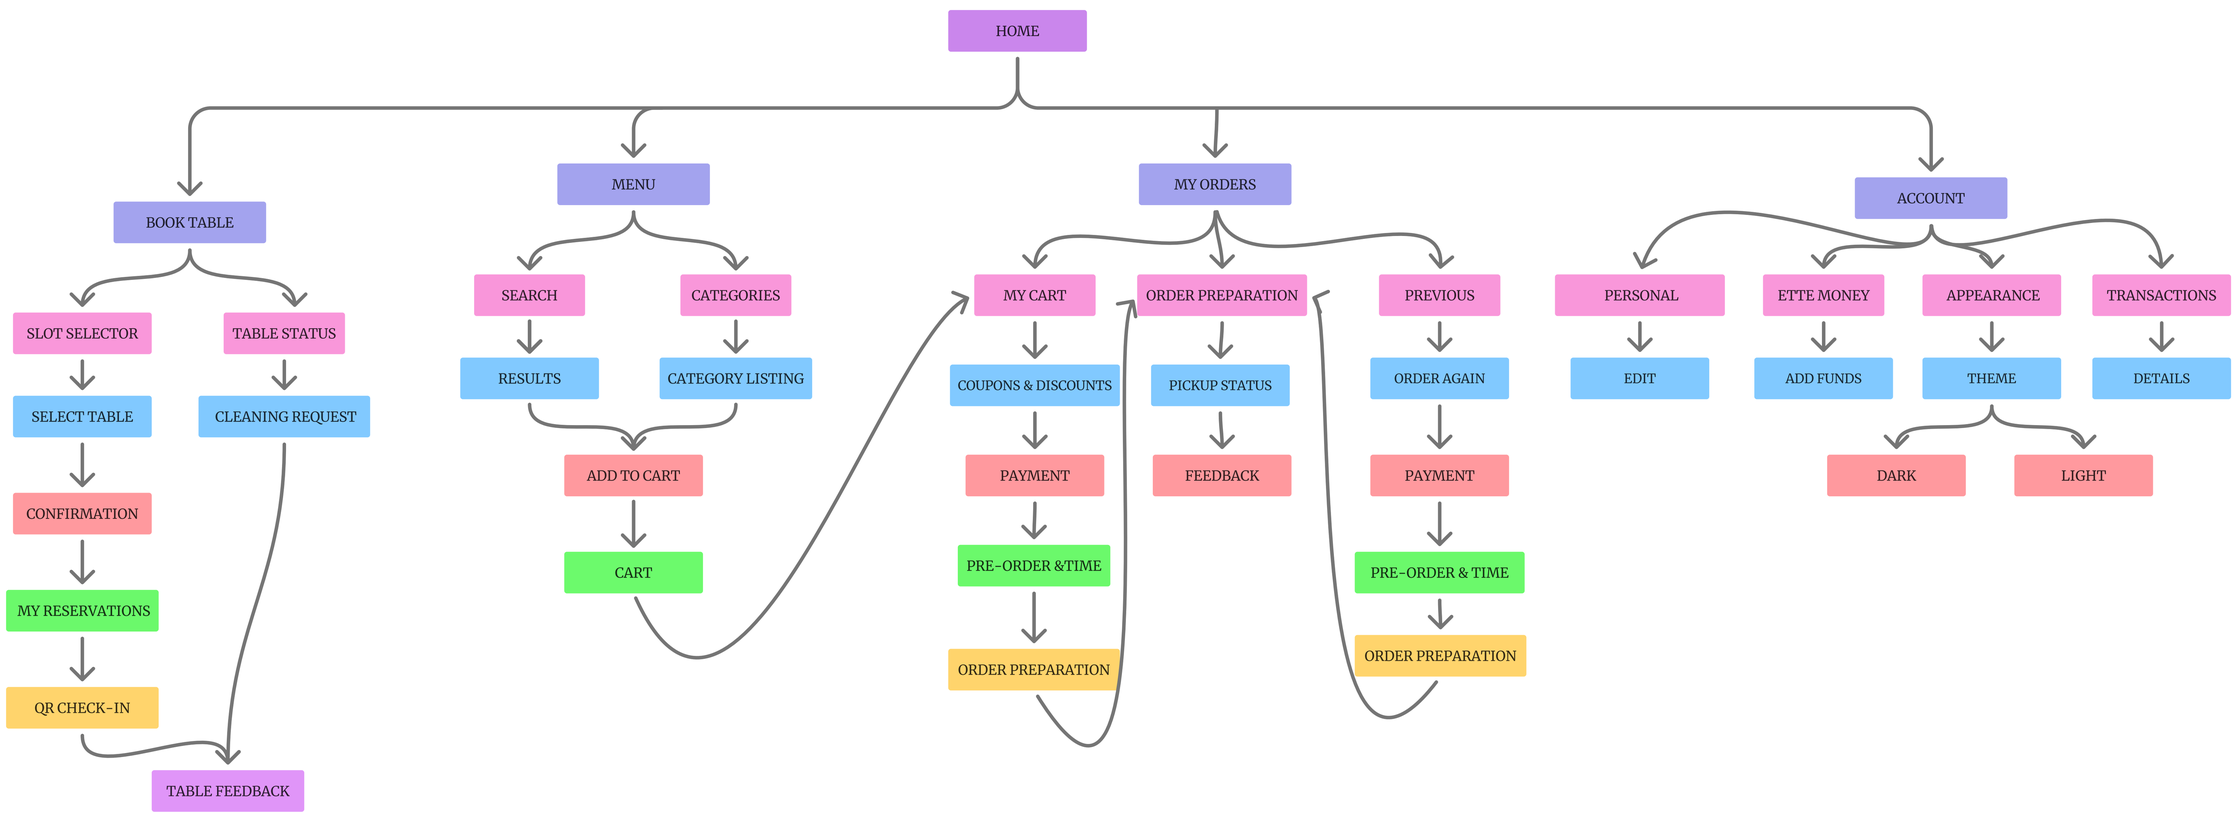

Dining & Environment Stage
- Show real-time seating availability in app and displays.
- Use notification alerts for staff to clean tables quickly.
- Add zoned lighting, greenery, and soft background music.
- Create quiet and group seating sections for comfort.

yogita yadav

Exit & Feedback Stage
- Add dedicated plate return and handwash zones.
- Create separate entry and exit pathways for easy flow.
- Add in-app feedback with emoji/star rating.
- Display “Thank You” in app with user names.
